

Polyethylene Plastic Piping Systems

Polytubes has been in the plastics pipe industry since 1953 and is dedicated to manufacturing plastic pipe to the highest quality standards to meet our customer's needs.

In 1977 Polytubes was transformed into a family run operation by Jim McCaffery. Polytubes has since grown from a single plant with one production line to four plants, over 40 production lines and four distribution centers. Polytubes believes in servicing the PE pipe industry through distribution locations throughout Canada to better meet the needs of our customers.
